<sup>\*</sup>Annualized

Calculated by dividing income from continuing operations by consolidated average assets.

See reconciliation of GAAP to non-GAAP Financial Measures on pages 6, 9, 10, 13, 19, and 22.

Current quarter Basel III common equity as well as the Basel III common equity Tier 1, Tier 1 capital, Total risk-based capital and Leverage ratios are estimated. Excludes guaranteed residential first mortgages that are 90+ days past due and still accruing. Refer to the footnotes on page 15 for amounts related to these loans.

<sup>(1)</sup> On April 4, 2018, Regions entered into a stock purchase agreement to sell Regions Insurance Group, Inc to BB&T Insurance Holdings. The transaction closed on July 2, 2018. The transaction generated an after-tax gain of \$196 million. On January 11, 2012, Regions entered into a stock purchase agreement to sell Morgan Keegan and Company and related affiliates to Raymond James Financial Inc. The sale closed on April 2, 2012.

<sup>(2)</sup> In a period where there is a loss from discontinued operations, basic weighted-average common shares outstanding are used to determine both basic and diluted earnings per share.

The rates for total deposit costs equal 0.27% for the quarter ended September 30, 2018, 0.24% for the quarter ended June 30, 2018 and 0.21% for the quarter ended March 31, 2018.

#### Regions Financial Corporation and Subsidiaries Financial Supplement to First Quarter 2019 Earnings Release

#### Pre-Tax Pre-Provision Income ("PPI") and Adjusted PPI (non-GAAP)

The Pre-Tax Pre-Provision Income tables below present computations of pre-tax pre-provision income from continuing operations excluding certain adjustments (non-GAAP). Regions believes that the presentation of PPI and the exclusion of certain items from PPI provides a meaningful base for period-to-period comparisons, which management believes will assist investors in analyzing the operating results of the Company and predicting future performance. These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur; however, management does not consider the activities related to the adjustments to be indications of ongoing operations. Regions believes that presentation of these non-GAAP financial measures will permit investors to assess the performance of the Company on the same basis as that applied by management. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Although these non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In particular, a measure of income that excludes certain adjustments does not represent the amount that effectively accrues directly to stockholders.

<sup>(1)</sup> Capital markets income primarily relates to capital raising activities that includes debt securities underwriting and placement, loan syndication and placement, as well as foreign exchange, derivative and merger and acquisition advisory services.

<sup>(2)</sup> These market value adjustments relate to assets held for employee benefits that are offset within salaries and employee benefits expense.

<sup>(3)</sup> Total mortgage production represents production during the period, including amounts sold into the secondary market as well as amounts retained in Regions' residential first mortgage loan portfolio.

<sup>(4)</sup> Total wealth management income presented above does not include the portion of service charges on deposit accounts and similar smaller dollar amounts that are also attributable to the wealth management segment.

#### **Reconciliation to GAAP Financial Measures**

# Adjusted Efficiency Ratios, Adjusted Fee Income Ratios, Adjusted Non-Interest Income/Expense, and Adjusted Operating Leverage Ratios - Continuing Operations

The table below presents computations of the efficiency ratio, which is a measure of productivity, generally calculated as non-interest expense divided by total revenue; and the fee income ratio, generally calculated as non-interest income divided by total revenue. Management uses these ratios to monitor performance and believes these measures provide meaningful information to investors. Non-interest expense (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest expense (non-GAAP), which is the numerator for the efficiency ratio. Non-interest income (GAAP) is presented excluding certain adjustments to arrive at adjusted non-interest income (non-GAAP), which is the numerator for the fee income ratio. Net interest income and other financing income and non-interest income are added together to arrive at total revenue. Adjustments are made to arrive at adjusted total revenue on a taxable-equivalent basis and non-interest income are added together to arrive at total revenue on a taxable-equivalent basis. Adjustments are made to arrive at adjusted total revenue on a taxable-equivalent basis (non-GAAP), which is the denominator for the fee income and efficiency ratios. Regions believes that the exclusion of these adjustments provides a meaningful base for period-to-period comparisons, which management believes will assist investors in analyzing the operating results of the Company and predicting future performance. These non-GAAP financial measures are also used by management to assess the performance of Regions' business. It is possible that the activities related to the adjustments may recur; however, management does not consider the activities related to the adjustments to be indications of ongoing operations. The table below also presents a computation of the operating leverage ratio (non-GAAP) which is the period to period percentage change in adjusted total revenue on a taxable-equivalent basis (non-GAAP) less the period to period percentage change in adjusted total revenue on a tax

#### **Reconciliation to GAAP Financial Measures**

#### **Return Ratios**

The tables below provide a calculation of "return on average tangible common stockholders' equity". Tangible common stockholders' equity ratios have become a focus of some investors and management believes they may assist investors in analyzing the capital position of the Company absent the effects of intangible assets and preferred stock. Analysts and banking regulators have assessed Regions' capital adequacy using the tangible common stockholders' equity measure. Because tangible common stockholders' equity is not formally defined by GAAP or prescribed in any amount by federal banking regulations it is currently considered to be a non-GAAP financial measure and other entities may calculate it differently than Regions' disclosed calculations. Since analysts and banking regulators may assess Regions' capital adequacy using tangible common stockholders' equity, management believes that it is useful to provide investors the ability to assess Regions' capital adequacy on this same basis.

#### **Credit Quality (continued)**

#### Adjusted Net Charge-offs and Ratios (non-GAAP)

Select calculations for annualized net charge-offs as a percentage of average loans (GAAP) are presented in the table below. During the first quarter of 2018, Regions made the strategic decision to sell certain primarily performing troubled debt restructured, as well as, certain non-restructured interest-only residential first mortgage loans. These loans were marked down to fair value through net charge-offs. Management believes that excluding the incremental increase to net charge-offs from the affected net charge-off ratios to arrive at an adjusted net charge-off ratio (non-GAAP) will assist investors in analyzing the Company's credit quality performance as well as provide a better basis from which to predict future performance. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. Although these non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP.

<sup>(2)</sup> The balance of Regions' home equity portfolio was \$9,014 million at March 31, 2019 consisting of \$5,705 million of home equity lines of credit and \$3,309 million of closed-end home equity loans. The home equity lines of credit presented in the table above are based on maturity date for lines with a balloon payment and draw period expiration date for lines that convert to a repayment period. The closed-end loans were primarily originated as amortizing loans, and were therefore excluded from the table above.

<sup>(2)</sup> As of December 31, 2018, approximately \$345 million of senior assisted living balances were reclassified from commercial real estate mortgage—owner-occupied to commercial investor real estate mortgage. The reclassification had a negligible impact on fourth quarter 2018 average balances.

<sup>(3)</sup> Regions sold \$167 million of affordable housing residential mortgage loans during the first quarter of 2019.

<sup>(4)</sup> Regions sold \$254 million of residential first mortgage loans during the first quarter of 2018. The loans sold consisted primarily of performing troubled debt restructured loans, as well as certain non-restructured interest-only loans.

<sup>(5)</sup> The balance of Regions' home equity lines of credit consists of \$2,961 million of first lien and \$2,744 million of second lien at 3/31/2019.

# Adjusted Average Balances of Loans (non-GAAP)

Regions believes adjusting total average loans for the impact of the purchasing card reclassification from other assets, the first quarter 2018 residential first mortgage loan sale and the indirect vehicles exit portfolio, provides a meaningful calculation of loan growth rates and presents them on the same basis as that applied by management.

#### **Reconciliation to GAAP Financial Measures**

#### **Tangible Common Ratios and Capital**

The following tables provide the calculation of the end of period "tangible common stockholders' equity" and "tangible common book value per share" ratios, a reconciliation of stockholders' equity (GAAP) to tangible common stockholders' equity (non-GAAP), and the fully phased-in pro-forma of Basel III common equity Tier 1 (non-GAAP).

The calculation of the fully phased-in pro-forma "Common equity Tier 1" (CET1) is based on Regions' understanding of the Final Basel III requirements. For Regions, the Basel III framework became effective on a phased-in approach starting in 2015 with full implementation extending to 2019. The Basel III rules are now fully phased in, other than with respect to deductions and adjustments whose transitional treatment has been extended until the federal banking agencies' September 2017 proposal to revise and simplify the capital treatment of selected categories of assets is finalized. The calculation provided below includes estimated pro-forma amounts for the ratio on a fully phased-in basis. Regions' current understanding of the framework includes certain assumptions, including the Company's interpretation of the requirements, and informal feedback received through the regulatory process. Regions' understanding of the framework is evolving and will likely change as analyses and discussions with regulators continue. Because Regions is not currently subject to the fully phased-in capital rules, this pro-forma measure is considered to be a non-GAAP financial measure, and other entities may calculate it differently from Regions' disclosed calculation.

A company's regulatory capital is often expressed as a percentage of risk-weighted assets. Under the risk-based capital framework, a company's balance sheet assets and credit equivalent amounts of off-balance sheet items are assigned to broad risk categories. The aggregated dollar amount in each category is then multiplied by the prescribed risk-weighted percentage. The resulting weighted values from each of the categories are added together and this sum is the risk-weighted assets total that, as adjusted, comprises the denominator of certain risk-based capital ratios. Common equity Tier 1 capital is then divided by this denominator (risk-weighted assets) to determine the common equity Tier 1 capital ratio. The amounts disclosed as risk-weighted assets are calculated consistent with banking regulatory requirements on a fully phased-in basis.

Since analysts and banking regulators may assess Regions' capital adequacy using tangible common stockholders' equity and the fully phased-in Basel III framework, we believe that it is useful to provide investors the ability to assess Regions' capital adequacy on these same bases.

<sup>(1)</sup> Current quarter amounts and the resulting ratio are estimated.

<sup>(2)</sup> Regions has systems and internal controls in place to calculate risk-weighted assets as required by Basel III on a fully phased-in basis. The amounts included above are a reasonable approximation, based on our understanding of the requirements.

#### Forward-Looking Statements

This release may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, which reflect Regions' current views with respect to future events and financial performance. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management's current expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, and because they also relate to the future they are likewise subject to inherent uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. Therefore, we caution you against relying on any of these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

- Current and future economic and market conditions in the United States generally or in the communities we serve, including the effects of possible declines
  in property values, increases in unemployment rates and potential reductions of economic growth, which may adversely affect our lending and other businesses
  and our financial results and conditions.
- Possible changes in trade, monetary and fiscal policies of, and other activities undertaken by, governments, agencies, central banks and similar organizations, which could have a material adverse effect on our earnings.
- Possible changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets and obligations, and the
  availability and cost of capital and liquidity.
- Any impairment of our goodwill or other intangibles, any repricing of assets, or any adjustment of valuation allowances on our deferred tax assets due to changes in law, adverse changes in the economic environment, declining operations of the reporting unit or other factors.
- The effect of changes in tax laws, including the effect of Tax Reform and any future interpretations of or amendments to Tax Reform, which may impact our earnings, capital ratios and our ability to return capital to stockholders.
- Possible changes in the creditworthiness of customers and the possible impairment of the collectability of loans and leases, including operating leases.
- Changes in the speed of loan prepayments, loan origination and sale volumes, charge-offs, loan loss provisions or actual loan losses where our allowance for loan losses may not be adequate to cover our eventual losses.
- Possible acceleration of prepayments on mortgage-backed securities due to low interest rates, and the related acceleration of premium amortization on those securities
- Loss of customer checking and savings account deposits as customers pursue other, higher-yield investments, which could increase our funding costs.
- Possible changes in consumer and business spending and saving habits and the related effect on our ability to increase assets and to attract deposits, which could adversely affect our net income.
- Our ability to effectively compete with other traditional and non-traditional financial services companies, some of whom possess greater financial resources than we do or are subject to different regulatory standards than we are.
- Our inability to develop and gain acceptance from current and prospective customers for new products and services and the enhancement of existing products
  and services to meet customers' needs and respond to emerging technological trends in a timely manner could have a negative impact on our revenue.
- Our inability to keep pace with technological changes could result in losing business to competitors.
- Changes in laws and regulations affecting our businesses, including legislation and regulations relating to bank products and services, as well as changes in
  the enforcement and interpretation of such laws and regulations by applicable governmental and self-regulatory agencies, which could require us to change
  certain business practices, increase compliance risk, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- Our ability to obtain a regulatory non-objection (as part of the CCAR process or otherwise) to take certain capital actions, including paying dividends and any plans to increase common stock dividends, repurchase common stock under current or future programs, or redeem preferred stock or other regulatory capital instruments, may impact our ability to return capital to stockholders and market perceptions of us.
- Our ability to comply with stress testing and capital planning requirements (as part of the CCAR process or otherwise) may continue to require a significant investment of our managerial resources due to the importance and intensity of such tests and requirements.
- Our ability to comply with applicable capital and liquidity requirements (including, among other things, the Basel III capital standards and the LCR rule), including our ability to generate capital internally or raise capital on favorable terms, and if we fail to meet requirements, our financial condition could be negatively impacted.
- · The effects of any developments, changes or actions relating to any litigation or regulatory proceedings brought against us or any of our subsidiaries.
- The costs, including possibly incurring fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions, or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results.
- Our ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support our business.
- Our ability to execute on our strategic and operational plans, including our ability to fully realize the financial and non-financial benefits relating to our strategic initiatives.
- The risks and uncertainties related to our acquisition or divestiture of businesses.
- The success of our marketing efforts in attracting and retaining customers.
- Our ability to recruit and retain talented and experienced personnel to assist in the development, management and operation of our products and services
  may be affected by changes in laws and regulations in effect from time to time.
- Fraud or misconduct by our customers, employees or business partners.
- Any inaccurate or incomplete information provided to us by our customers or counterparties.

#### Regions Financial Corporation and Subsidiaries Financial Supplement to First Quarter 2019 Earnings Release

- Inability of our framework to manage risks associated with our business such as credit risk and operational risk, including third-party vendors and other service providers, which could, among other things, result in a breach of operating or security systems as a result of a cyber attack or similar act or failure to deliver our services effectively.
- Dependence on key suppliers or vendors to obtain equipment and other supplies for our business on acceptable terms.
- The inability of our internal controls and procedures to prevent, detect or mitigate any material errors or fraudulent acts.
- · The effects of geopolitical instability, including wars, conflicts and terrorist attacks and the potential impact, directly or indirectly, on our businesses.
- The effects of man-made and natural disasters, including fires, floods, droughts, tornadoes, hurricanes, and environmental damage, which may negatively affect our operations and/or our loan portfolios and increase our cost of conducting business. The severity and impact of future earthquakes, fires, hurricanes, tornadoes, droughts, floods and other weather-related events are difficult to predict and may be exacerbated by global climate change.
- Changes in commodity market prices and conditions could adversely affect the cash flows of our borrowers operating in industries that are impacted by changes in commodity prices (including businesses indirectly impacted by commodities prices such as businesses that transport commodities or manufacture equipment used in the production of commodities), which could impair their ability to service any loans outstanding to them and/or reduce demand for loans in those industries.
- Our ability to identify and address cyber-security risks such as data security breaches, malware, "denial of service" attacks, "hacking" and identity theft, a failure of which could disrupt our business and result in the disclosure of and/or misuse or misappropriation of confidential or proprietary information, disruption or damage to our systems, increased costs, losses, or adverse effects to our reputation.
- · Our ability to realize our adjusted efficiency ratio target as part of our expense management initiatives.
- Possible cessation or market replacement of LIBOR and the related effect on our LIBOR-based financial products and contracts, including, but not limited to, hedging products, debt obligations, investments, and loans.
- · Possible downgrades in our credit ratings or outlook could increase the costs of funding from capital markets.
- The effects of a possible downgrade in the U.S. government's sovereign credit rating or outlook, which could result in risks to us and general economic
  conditions that we are not able to predict.
- The effects of problems encountered by other financial institutions that adversely affect us or the banking industry generally could require us to change certain business practices, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.
- The effects of the failure of any component of our business infrastructure provided by a third party could disrupt our businesses, result in the disclosure of and/or misuse of confidential information or proprietary information, increase our costs, negatively affect our reputation, and cause losses.
- Our ability to receive dividends from our subsidiaries could affect our liquidity and ability to pay dividends to stockholders.
- Changes in accounting policies or procedures as may be required by the FASB or other regulatory agencies could materially affect our financial statements
  and how we report those results, and expectations and preliminary analyses relating to how such changes will affect our financial results could prove incorrect.
- Other risks identified from time to time in reports that we file with the SEC.
- · Fluctuations in the price of our common stock and inability to complete stock repurchases in the time frame and/or on the terms anticipated.
- The effects of any damage to our reputation resulting from developments related to any of the items identified above.

The foregoing list of factors is not exhaustive. For discussion of these and other factors that may cause actual results to differ from expectations, look under the captions "Forward-Looking Statements" and "Risk Factors" of Regions' Annual Report on Form 10-K for the year ended December 31, 2018 as filed with the SEC.

The words "future," "anticipates," "assumes," "intends," "plans," "seeks," "believes," "predicts," "potential," "objectives," "estimates," "expects," "targets," "projects," "outlook," "forecast," "would, "will," "may," "might," "could," "should," "can," and similar terms and expressions often signify forward-looking statements. You should not place undue reliance on any forward-looking statements, which speak only as of the date made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible to predict all of them. We assume no obligation and do not intend to update or revise any forward-looking statements that are made from time to time, either as a result of future developments, new information or otherwise, except as may be required by law.
